Hizspanki in Polska

It seems ages now since we were in Poland but we still remember the trip. We had such a great time!
We were happy to meet everybody again. Our Polish hosts, nor friends smiled brightly and we knew they were really happy to have us there. We really appreciate all the hard work they did so we could get a grasp of Poland. We even had the opportunity to "participate" in a wedding party.

Lubin was such a nice, green city! Lots of parks around, lots of green everywhere .

Wroclaw really surprised us so much; there were so many ancient buildings in perfect condition. The museum was also interesting although by the time we understood which general was wearing a red jacket , they had already moved on. This takes us to the topic of language. We found it difficult. The little workshop we had done in Lillers helped , but..... Anyway ,with interest and effort most of us succeeded in pronouncing a couple of "thanks" in Polish.

The students had such a great time, if we forget the trip back. We had to get up at 4.00 although some students didn't go to sleep at all. You can imagine the trip back: "zzzzzzzzzzzzzzzzzz. Everybody in the classroom envies them, now. Especially because of all the girls they met ;). They felt very confortable in their host families and the trip made them aware of the differences and similarities among cultures. That's what the Comenius program is for, isn't it?

We all have the desire to come back one day and maybe visit the rest of the country.
