

Impressions of the Italian students on the first trip to Lillers

I had such a great time, there in Lillers: I've known lots of people among French students and students coming from other countries too.

We experienced the everyday lifestyle of that place, like food habits, sports, life habits and studying methods.

I think that it's a really important and useful experience for everyone, in order to strengthen either your own language and social skills.

By Donato Brusamento.

The trip to France was a funny and useful experience to improve my English and to learn how to communicate with other people. The journey was a great possibility for me to meet friends from other countries. The family that hosted me was kind to me and I had a great time. I wish I would come back!

It was a really wonderful experience! I've known a lot of new people and I've enjoyed it. I think that the other people that will go to the next meetings will have a good time too and I'd like to go again to visit other beautiful places and to learn about European cultures.

Hi dear,

I'm Davide, I'm not sure if you remember me. However I want to tell you about the trip to France; I think it was very interesting and, for me, also productive. In this experience I learnt to speak English better. In fact we all had to communicate in English and the French guys were very friendly and nice with us. If I could, I'd like to do it again!

Thanks for all, I had so much fun.

Goodbye! Davide Mantovani

Here we are
