Our impressions:

My trip to Poland was a real adventure, but it was very nice to know different cultures.
We were surprised by almost everything, because it was all very different from Padova.
When we arrived in Rudna and there was nobody around, I personally thought something had happened, but then, I discovered that the town is always so quiet, which is incredible for me.
We visited many interesting places like the dump (the biggest in Europe) and the stadium (which was very small but interesting).
Everyone was nice and kind even though I noticed that they all have a huge passion for smoking.
I think that my favourite part of the trip was the visit to the stadium and some players with kids running after them.

In the end, I liked this trip and I'm looking forward to their arrival here in Padova.

At the end of September my friends and I went to Poland for the Comenius project.
I stayed with a student and his family and his name is Radek. The house was in Rudna a little village 13 kilometres far from Lubin, where the school is.
There was also one of my friends, Daniele, in Rudna and we met almost every every day after school.
I stayed very well because they were friendly and we could understand very well, even without talking.
The time I spent in Poland was beautiful because I could have seen other places and I could compare the Italian culture with the Polish culture.
The place I prefer in Lubin is the shopping centre it's a very beautiful place where you can spend a great afternoon and a lot of money too!

Bye bye I hope to see you soon in Italy

The trip to Lubin was a very positive experience for me. I've had a wonderful time in there!
I met people from different countries and I discovered a different culture from mine.
It was also very useful for me because I had the chance to improve my English skills and
I learned a lot about Polish lifestyle.
I'd like to thank Artur's family that hosted me and have been so kind to me.
If I could, I'd come back as soon as possible!
Thanks for all.
