

The trip in Greece was my first time abroad and I was really excited!!
The other girls and I woke up at 2 a.m. because we had an early flight and therefore the first day we were really tired and I was really nervous for the presentation.
However, I think everything was OK :)

After the presentation we went to the biggest mall I've ever seen! There were lots of shops, a cinema and even a bowling alley.

There were many restaurants, more than 15, and a fast food and there was a beautiful carousel.

The day after, we went to the tomb of Philip II in Vergenia; it was very interesting! I liked the visit a lot!
After that we went to a lovely huge park; there were a lot of stray cats and a lonely dog.
There was also a very beautiful pond...

We visited the center of Thessaloniki; we saw the White Tower and two museums and then we went to the shops where I bought some cute souvenirs ;D

I can say that I really enjoyed this trip; the guys were really funny and I spent a good time. I loved Greece and I hope to go back one day :)

See you soon in Italy, a big hug

Maria Elena.

My staying in Greece has been very instructive and pleasant. I had the opportunity to meet many guys from different nationalities and cultures and it was very interesting to understand their way of thinking.

The family that hosted me was really fantastic in every way because whenever I needed anything they were always helpful with me and they have proved to be lovely people. I thank them very much for everything they have done. Beyond that Maria's mother cooked for us several Greek dishes and they were really good; her mother is a fantastic cook.

During the stay we had some fantastic trips: we went to visit some tombs and then we went to a beautiful park. I liked all of them because we were always together and we managed to know one another and become friends. We're still in touch now and after this trip, friendship has become deeper and we feel like a big family. It's a marvellous thing of having lots of friends of different nationalities.

I enjoyed myself a lot the night when we went to the Cosmos to eat and play bowling. Even though we had got up at 2.00 AM that day, we still had energy to play and have fun with the other guys, but as soon as we went home we fell asleep.

It was all really fun and I'd love to go back sometime in the future.

See you soon,

Giulia.

Hi guys! Last week I went to Thessaloniki with Maria Elena and Giulia. I stayed at Christina's (a Greek student) and she was so kind to give me her bedroom! The first day we presented our project about Italian recipes. The other two days we visited three museums of Greek and Byzantine history. One afternoon we went to a beautiful park and we drank a chocolate in a nice café.

On Saturday I went to do some shopping in the centre of Thessaloniki and... there were a lot of beautiful shops! The Greeks are very different from us, because they have different habits: they stay out till late!

Thessaloniki is a small but very important city in Greece. We saw the White Tower near the sea...

Luckily, it was a nice day!

I enjoyed myself and learned a lot of things about their culture. They are very polite. It is true that if you are forced to speak English, you learn it faster!

Thanks for everything!

I hope to see you soon in Italy.

Love, Camilla.
