

A Comenius Story

Comenius Programme
“Habits of European youngsters”

6th meeting in Padua Italy
9-13 Apr. 2013

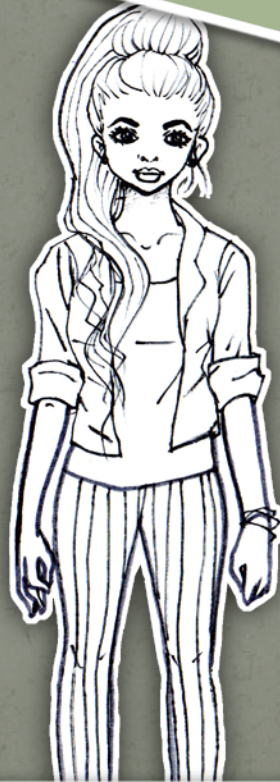

We have the results of the questionnaires on eating habits, family, reading habits and free time of the European students.

Ana
from Spain

Patricia
from Poland

Michelle
from France

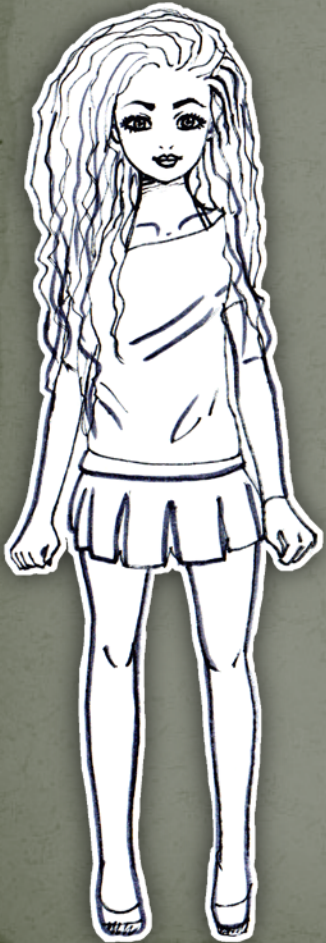

Alexander
from Greece

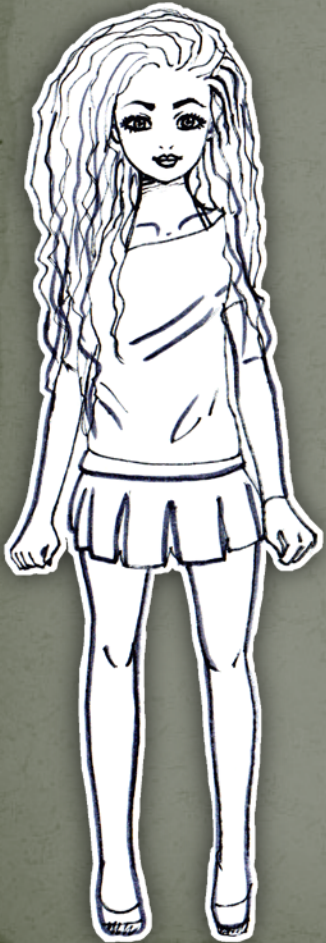

Did you know that
European students prefer
eating meat to pulses?

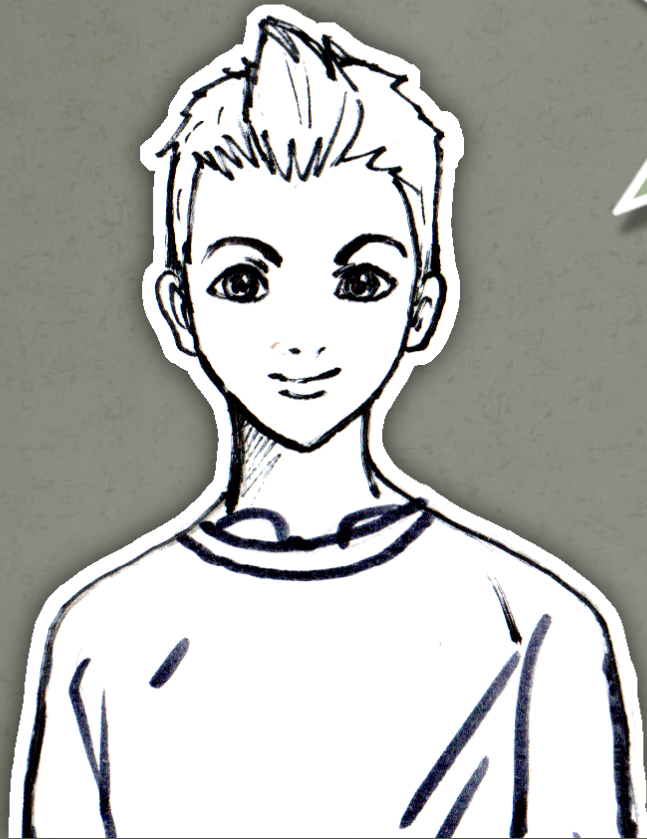

Very interesting! The fact that amazes me is that the most of the students answered that they don't smoke at all, while a small percentage answered that they smoke up to 15 cigarettes per day!

That's positive! You know, according to the study, only 3 out of 653 students don't listen to music or surf the net in their free time.

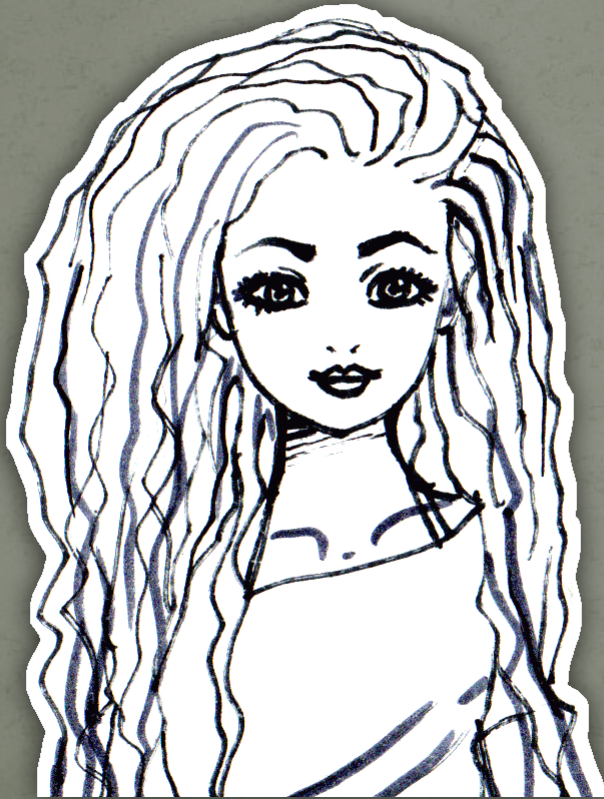

Wow! Incredible!

... Many students also answered that they're not sure whether they believe in God.

What surprises me quite a lot, according to the Greek questionnaire, is that, although we, European countries suffer from economic crisis, 9 out of 10 students don't read political newspapers.

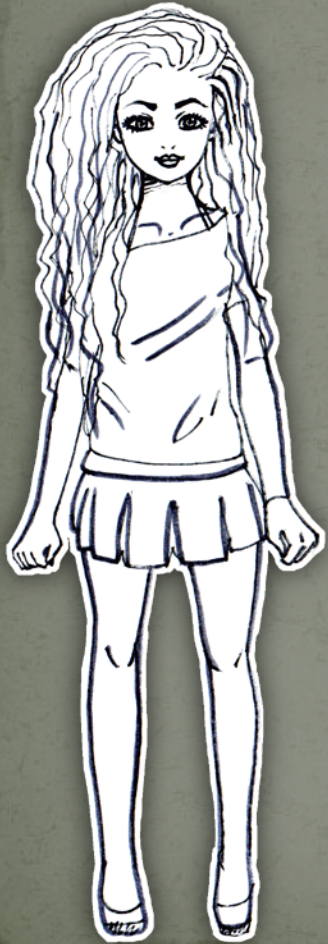

I wonder, is it due to lack of interest
or lack of free time?

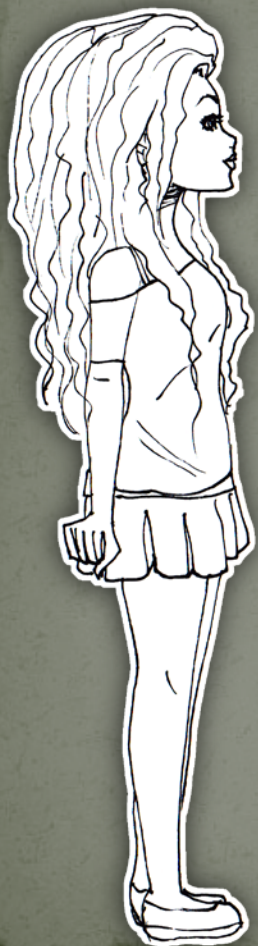

All in all, Comenius programme has helped us understand what our differences are, in cultural terms and has left us with beautiful and unforgettable experiences.

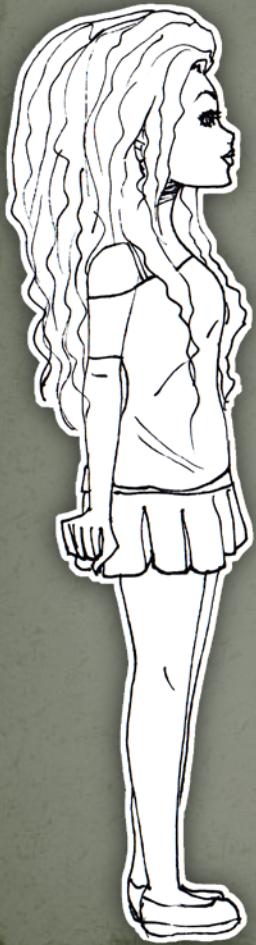

Hahaha!
You know what happened to us at the
airport of Rome?

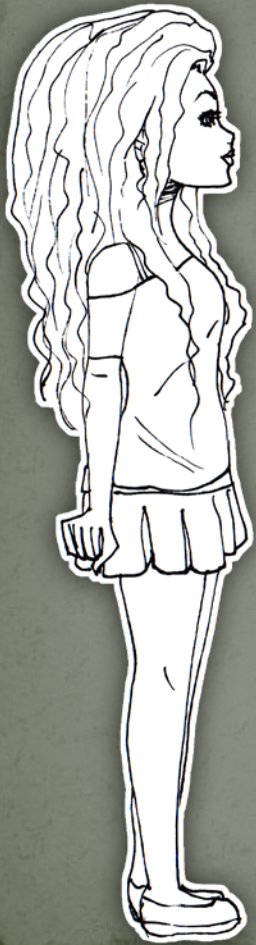

Oh no!
What happened?

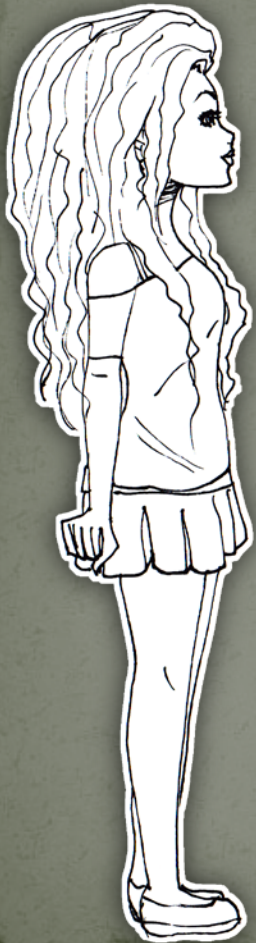

Please tell us!

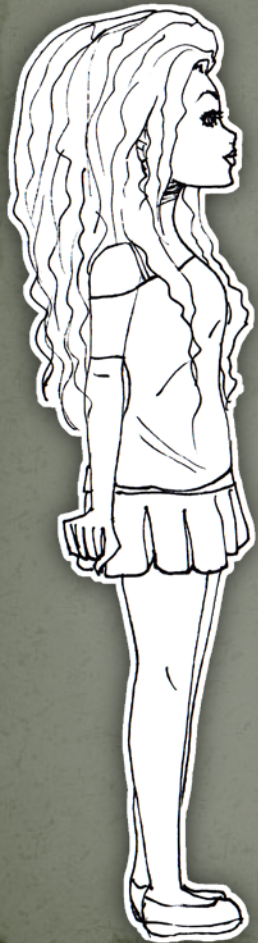

Must be funny!

No! Quite the opposite! It was scary and quite embarrassing.

Come on, we're all ears!!

Security policemen noticed that we were far away from our suitcases and because we were talking loudly, they decided to arrest us and run a check on us.

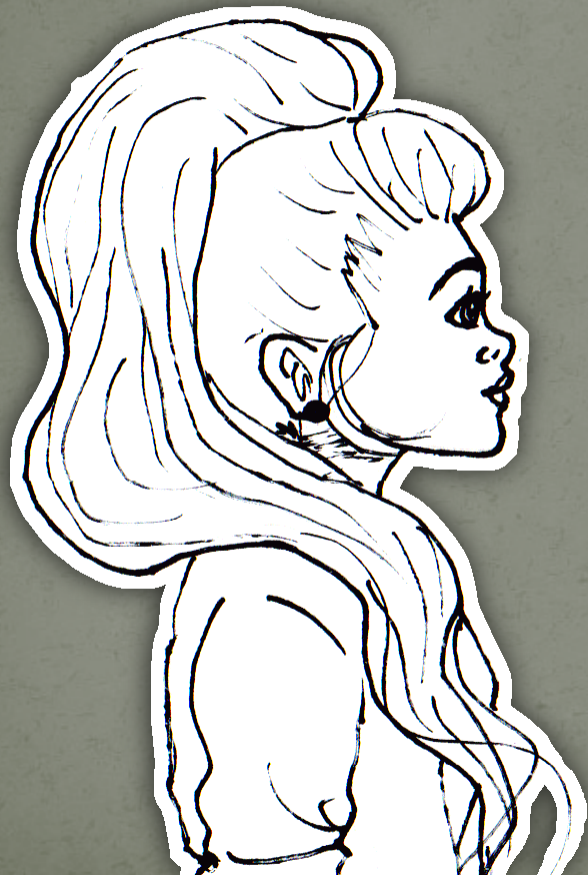

Oh my god!!
Outrageous!!!
You were just talking...

Yes! It was exhausting but funny too!

Then they asked us for our ID and boarding cards.

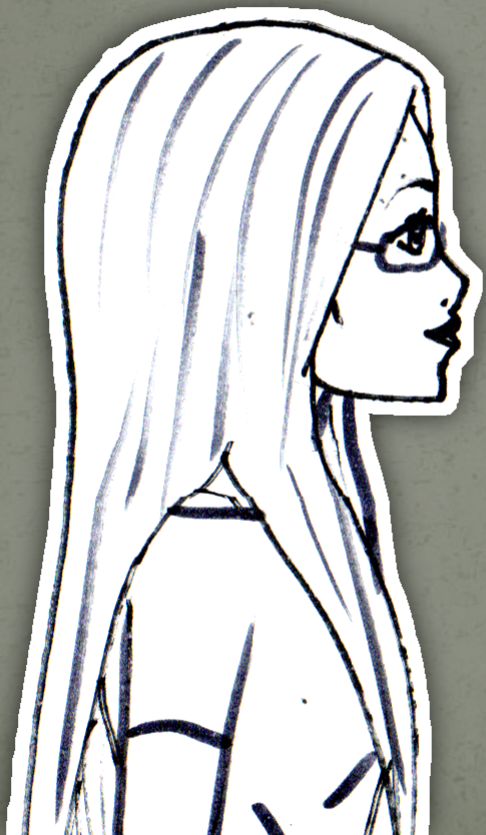

Jesus Christ!! And what happened next?
Did they set you free?

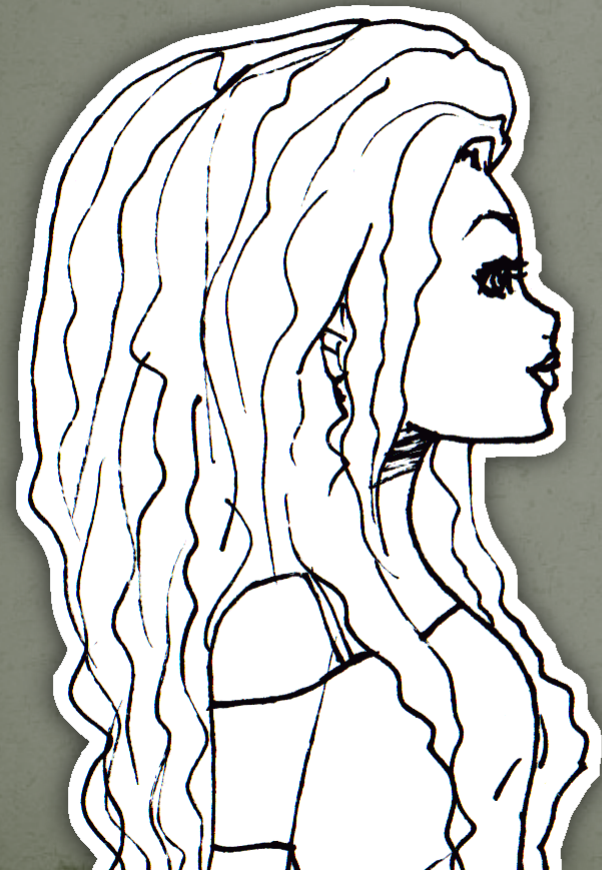

Of course! Not only did they set us free but they also apologized. Fortunately, our Comenius leader came and confirmed who we are and what we were doing there.

We were late, though, for our second flight. Anyway... we reached our destination safe and sound

Ha! Nice adventure! Apart from what happened to you, Comenius programme was a source of experiences and information about other cultures!

Yes indeed!

Comenius was a wonderful experience that I would definitely like to live again.

I couldn't agree more!!

The End
